QATOL is a premium oil and greases producer established in **2021** in **Qatar**

We are specialized in manufacturing and marketing wide range of lubricating oils and greases in automotive, industrial, energy and marine sectors.

Our state-of-the-art facility located in Mesaieed Industrial City, south of Qatar, is using the latest technology in the lubricant manufacturing sector.

Serving various markets worldwide, QATOL is committed to innovation and excellence, driven by a team of skilled engineers and researchers who ensures top-notch performance.

WHY QATOL?

QATOL guarantees impeccable after-sales services and consultations based on our vast network of distributors across the MENA region and Europe. From your requirements to our wide variety of API and OEM-approved lubricants, we follow our mantra of ensuring quality at every step of our daily operations.

WHAT WE DO?

We invest primarily in the bright minds of our experienced engineers, technicians, and researchers. From our labs in Qatar, our team works around the clock to develop the most reliable formulas that cater to the varied requirements of our customers in different markets around the globe.

QATOL produces an exhaustive list of products ranging from heavy-duty engine and transmission oils to brake fluids and coolants that suits all types.

MISSION, VISION & VALUES

QATOL

OUR MISSION

To empower our customers with quality products and thorough solutions that transcends expectations and exceed the international standards.

OUR VISION

To revolutionize the lubricants global industry through cutting-edge technology, and to become a life time partner.

OUR VALUES

- Trust
- Ethics
- Social Responsibility
- Innovation
- Knowledge

OUR FACILITY

Our facility has expandable production up to 75,000 MT and raw material storage up to 5,000 MT.

With QATOL's fully automated 4 production lines for all types of packaging, 6 blenders and 7 hold up tanks, we are capable to produce 600 SKUs and currently activated 160 SKUs in actual production.

All our products are certified by ISO 9001, ISO 14001 and ISO 45001.

QATOL production facility also features Automatic Batch Blending (ABB) through technology controlled and monitored by SCADA.

QATOL is proud of its state-of-the-art laboratory with 15 equipment and 32 different tests.

QUALITY ASSURANCE

Quality Control in QATOL follows international standards, i.e., ASTM and ISO, inspects the essential physical and chemical parameters of the oil at every stage of the production process, from receiving the raw material to the finished products.

OUR PRODUCTS RANGE

QATOL

PRODUCTS RANGE AUTOMOTIVE

QATOL

PASSENGER CAR MOTOR OIL

- QATOL TIERRA ML Gasoline Engine Oil **(20W50, 15W40, etc.)** API **SG, SL, SM, SN, SP**
- QATOL TIERRA ST Gasoline Engine Oil **(10W40, 5W30.)** API **SG, SL, SM, SN, SP**
- QATOL TIERRA FS Gasoline Engine Oil **(5W30, 5W40, 0W20, etc.)** API **SG, SL, SM, SN, SP**

DIESEL ENGINE OIL

- QATOL SUPER POWER range **(15W40, 10W40, etc.)** API **CI-4** and lower API **CF, CH-4**
- QATOL SUPER ULTRA range **(15W40, 10W40, etc.)** API **CJ-4**
- QATOL SUPER POWER HDX range **(15W40, 10W40, etc.)** API **CK-4**

MOTORCYCLE OIL

- QATOL SIGMA MCO **4TSAE 10W40** API **SL, SM, SN, SP**
- QATOL SIGMA MCO **4TSAE 20W50** API **SL, SM, SN, SP**

TRANSMISSION OIL

- QATOL GEARMAX Mineral range **80W90, 85W140, GL-4, GL-5**
- QATOL GEARMAX Synthetic range **75W90, 75W80 GL-4, GL-5**

PRODUCTS RANGE AUTOMOTIVE

AUTOMATIC TRANSMISSION FLUID

- QATOL ULTRA TRANS - **ATF III**
- QATOL ULTRA TRANS - **ATF VI**
- QATOL ULTRA TRANS - **CVT**

COOLANT AND ANTIFREEZE

- QATOL SUPER COOL AFSC – **OAT 33, 50%**
- FINAL CHARGE® Global **ELC 50%**

BRAKE FLUID

- QATOL Q-TEC BRAKE FLUID **DOT 2**
- QATOL Q-TEC BRAKE FLUID **DOT 4**

TRANSMISSION/DRIVE TRAIN OIL

- QATOL TRANS TD - TO4 (**SAE 10W, 30, 50**)
- QATOL SUPER POWER TO-2 (**SAE 10W, 30, 50**)
- QATOL UTTO TRANSMISSION and WET BRAKE OIL (**SAE 10W 30**)

PRODUCTS RANGE AUTOMOTIVE

QATOL

DIESEL EXHAUST FLUID

- QATOL QATBLUE ADBLUE DEF FLUID

FLUSHING OIL

- QATOL FLUSHING OIL

PRODUCTS RANGE INDUSTRIAL & MARINE

QATOL

HYDRAULIC OIL

- QATOL REDLINE HYDRO **ISO HM (VG 22, 32, 46, 68, 100, 150)**
- QATOL REDLINE HYDRO **ISO HVI (VG 22, 32, 46, 68, 100, 150)**
- QATOL REDLINE ZAF **(VG 22, 32, 46, 68, 100, 150)**

TURBINE OIL

- QATOL REDLINE **GT (32, 46, 68)**
- QATOL REDLINE **GST (32, 46, 68)**

INDUSTRIAL GEAR OIL

- QATOL REDLINE **CLP EP68, 100, 150, 220, 320, 460, 680, 1000**
- QATOL REDLINE **UNISYN CLP68, 100, 150, 220, 320, 460, 680, 1000**

PRODUCTS RANGE INDUSTRIAL & MARINE

COMPRESSOR OIL

- QATOL ROTO **JET(32, 46, 68, 100)**
- QATOL ROTO **JET UNISYN (32, 46, 68, 100)**

MARINE OIL

- QATOL MANTA RAY TPEO **30 SAE 40**
- QATOL MANTA RAY TPEO **40 SAE 40**
- QATOL MANTA RAY TPEO **50 SAE 40**
- QATOL MANTA RAY TPEO **55 SAE 40**

GREASES

- QATOL QPLEX **LI-MP (00,0,1,2,3)** – Lithium Grease
- QATOL QPLEX **LI-EP (00,0,1,2,3)** – Lithium Grease
- QATOL QPLEX **LIX-HT EP (00,0,1,2,3)** – Lithium Complex
- QATOL QPLEX **WRG GREASE (00)**
Wire Rope Calcium Sulphonate Grease

RESEARCH & DEVELOPMENT

QATOL

Our dedicated Research and Development (R&D) team works tirelessly to formulate advanced lubricants that meet the highest international standards.

We ensure that our products deliver unmatched performance and reliability, supported by our fully automated blending and filling facilities: Our commitment to quality is further reinforced by our ISO 9001:2015 and ISO 14001 certifications, ensuring that every product we deliver meets the stringent requirements of our global customers.

TECHNICAL SUPPORT SERVICES

OIL CONDITION MONITORING (OCM)

We use OCM as one of the essential and direct approaches to diagnosing the health of an engine. Qatol's OCM provides a variety of physical and chemical tests to assess the lubricant's condition and its performance as required by the machines application. We provide a variety of test packages to determine the health of your lubricant, so you can take the necessary actions when needed.

TECHNICAL TRAINING PROGRAMS

We provide hands-on interactive workshops and conduct in-depth technical sessions, based on the trainees' background as well as customize training solutions for the different industries.

Our strong logistics infrastructure and network ensures timely delivery across the globe. We provide various delivery options, including bulk supply facilitated by a dedicated QATOL tanker equipped with digital meters. Direct bulk dispatch from our central tanks to yours not only lowers oil costs per liter but also reduces storage requirements, eliminates leftover losses common with drum usage, eliminates cumbersome drum pump transfers, enhances inventory control, promotes environmental preservation and safety compromised otherwise by dripping oil & slippery workshop floors in case of drums.
